

CASE STUDY – Edge City/Mixed Use

# Desoto Town Center, Desoto - Texas

High Street Residential has been awarded the opportunity to work with the City of DeSoto on the catalyst phase of a redevelopment of their town center. The first phase conforms to the corridor plan vision that the city has crafted. The development is a public/private partnership which will include public investment for high quality public infrastructure a reinvented civic plaza as well as a mixed use parking structure.

Desoto Town Center will consist of 135 residential units, 35,600 square feet for commercial and ample parking to service both public and private uses on the 15.54 acre tract.
