Tina is responsible for managing the day-to-day activities of all aspects of property entitlement, construction, FFE procurement/installation, relocation and general project management, including selection of design, consultant, and contractor teams through a competitive process, contract management, on-site quality control and construction management, budget and schedule management, to include monthly funding requisitions. Tina also has extensive experience with detailed planning tasks with clients, including inventory, subsequent procurement and installation or relocation of all furniture, fixtures and equipment involved with corporate relocation.

PROFESSIONAL EXPERIENCE

Tina joined Trammell Crow Company in March 2006 as a Project Manager and is a veteran of project, systems and construction management. Prior to joining Trammell Crow Company, Tina worked with Mike Sullivan and Bill Mosher at Mile High Development and subsequently Mosher Sullivan Development Partners.

She has worked on such high profile projects as the History Colorado Center and Judicial Parking Facility, Wellington E. Webb Municipal Office Building, the Denver Newspaper Headquarters Building, the Cultural Center Parking Garage at the new Denver Art Museum, and the build out of the Colorado Center mixed use project, as well as smaller projects including the Airways Business Park, Bank of Denver corporate office building, Brownstein Hyatt Farber & Schreck remodel, University Physicians Inc. and the Children's Hospital FFE/move coordination projects. She recently completed the City of Arvada/Regional Transit Authority's (RTD) Olde Town Transit Facility, Riverview at 1700 Platte Street, 169 Inverness Drive office projects and is currently working on the Colorado Convention Center Expansion project.

Ms. Lashbrook has 20 years of experience developing and managing projects. Prior to working with Mile High Development, Ms. Lashbrook was a licensed insurance account consultant.
