JAMERSON@TRAMMELLCROW.COM

Amerson is primarily focused on underwriting and market analysis for new acquisitions, including collecting, reviewing, and verifying market information, as well as, identifying current and future competition, demographic statistics and other local market data across a broad array of product types including office, industrial, medical office, and special projects.

In addition, Mr. Amerson assists with direct support on Trammell Crow Company's public private partnership projects, specifically, on the Los Angeles County project team. Amerson assists in responding to RFP's for potential projects, verifying project information in the asset management database, ELITE, and the preparation of investment committee approval packages.

Prior to joining Trammell Crow Company in Los Angeles, Amerson worked as Corporate Intern for Trammell Crow Company's national team in Dallas, Texas. In this role, he served as quarterback for a two-person analyst team that performed attribution analyses on over \$2 billion in monetized assets across all regions of the United States. Prior to joining Trammell Crow Company, Amerson also spent two years interning for boutique development and investment firms in Fort Worth, TX.
